- **Languages and Frontend:** JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion, Responsive Web Design
- **Backend and Databases:** Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, JWT Authentication, Role-Based Access Control
- **IT System Administration:** System Troubleshooting, IT Infrastructure Support, Network Support, Hardware and Software Maintenance, Technical Support, Windows, Linux
- **Deployment and Tools:** Website Deployment and Maintenance, Vercel, Render, Git, GitHub, Postman, VS Code, Cross-Browser Testing
- **Security and AI Integration:** bcrypt, OpenAI API, GROQ API, Llama-3.1-8b-Instant

PROFESSIONAL EXPERIENCE

IT System Administrator Aug 2026 - Present
Pospark Retail Private Limited Bengaluru, India

- Build, deploy, and maintain the company website, ensuring reliable uptime and a smooth user experience.
- Resolve company-wide IT issues across systems, networks, and hardware and software, minimizing downtime.
- Administer IT infrastructure and deliver ongoing technical support to all departments, improving operational efficiency.

Full-Stack Web Developer (Project-Based) Jan 2025 - Dec 2025
Self-Employed India

- Delivered responsive portfolio websites with React and Tailwind CSS, providing ongoing support and updates for 40+ recruiters and clients.
- Engineered hotel booking prototypes with advanced filtering, improving user retention by 25% through mobile-first design and cross-browser testing.
- Maintained 10+ GitHub repositories with clear documentation and issue tracking; reviewed pull requests and resolved bugs for open-source contributors.

Full Stack Development Trainee Jun 2025 - Aug 2025
Certified Program India

- Built 5+ production-ready MERN applications using reusable component architecture, reducing deployment time by 30%.
- Developed a hotel booking platform with dynamic search and real-time filtering; resolved performance issues based on user feedback.
- Secured REST APIs with JWT authentication, bcrypt password hashing, and role-based access control.

PROJECTS

AI Career Guidance Portal (Academic Project) Jan 2026 - Feb 2026
Full-Stack Developer / MERN, GROQ API, Llama-3.1, Vercel, Render India

- Designed and built a MERN platform with 4 AI modules for career recommendations, resume analysis, and skill gap assessment, used by 200+ test users.
- Integrated the GROQ Llama-3.1 API with a fallback mechanism so the system keeps working if the AI service is unavailable.
- Deployed on Vercel and Render, monitoring logs and resolving deployment issues to maintain high availability.

EDUCATION

Bachelor of Computer Applications (BCA) Jul 2023 - Jul 2026
Gauhati University Guwahati, Assam, India

CGPA: 7.21/10 | Coursework: Data Structures, DBMS, Web Technologies, OOP, Operating Systems, Computer Networks, Software Engineering
